Installation

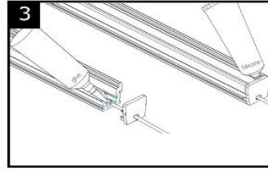

Recessed

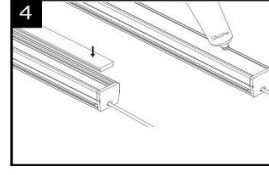

1
Create a recess for profile, ensure that a second recess is also created for the driver.

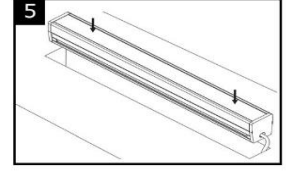

2
Remove the adhesive tape on the back of the LED strip tape. Position LED strip carefully and stick down.

3
Feed endcaps onto profile.
(For a firm fit apply glue.)

4
Push diffuser into aluminium.

5
Press the profile into the recess ensuring the driver wire has been threaded through the second recess.

- 2000mm or 3000mm length
